TECHNICAL PROFILE

Computer Engineering diploma student and Full Stack Developer with hands-on experience building web applications, APIs, database-backed systems, and AI automation workflows. Built projects spanning DNS security, voice automation, e-commerce, and responsive web experiences.

EDUCATION

Vidyalankar Polytechnic — Diploma in Computer Engineering 2024 – 2027 | Current Aggregate: **92%**
Relevant Coursework: Data Structures and Algorithms, Database Management Systems

N.E.M.S Nadgive — Secondary School Certificate 2024 | Percentage: **91.60%**

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C, C++, Python, SQL
Frontend: Next.js, React, TypeScript, JavaScript, Tailwind CSS
Backend & APIs: Node.js, Express.js, REST APIs
Databases & Platforms: MongoDB, PostgreSQL, Supabase
Automation & Developer Tools: n8n, ElevenLabs, Twilio, Git, pgAdmin, Figma

EXPERIENCE

Nexoresha — Full Stack Web Developer Intern June 2026 – August 2026

- Contributed to frontend and backend development across multiple full-stack web projects, including application interfaces, APIs, and data integration.
- Built and integrated application functionality using MongoDB, PostgreSQL, and Supabase where applicable.
- Led development work on selected projects and collaborated across implementation, version control, testing, and deployment.

SELECTED PROJECTS

DNS Sentinel DNS Security • Threat Classification • Database Intelligence
Smart India Hackathon — Second Runner-Up

- Developed a DNS security workflow that classifies requested domains as Safe, Suspicious, or Malicious before resolution.
- Implemented database-backed checks that reuse previous classifications and support allow, flag, or block decisions for potentially unsafe domains.

Saad AI Calling Agent n8n • ElevenLabs • Twilio • REST APIs | Watch Demo

- Built an AI voice assistant that answers inbound calls and provides conversational information about portfolio projects.
- Integrated Twilio, n8n, and ElevenLabs for telephony, workflow automation, and natural voice responses.

Nexoresha Seran Next.js • React • TypeScript • Tailwind CSS | GitHub | Live Demo

- Developed a responsive perfume e-commerce experience using Next.js, React, and TypeScript with reusable product and shopping interfaces.

SAAD // ACCESS BUILD 7446 Next.js • React • TypeScript • Tailwind CSS | GitHub | Live Demo

- Built an interactive web showcase documenting a Suzuki Access 125 customization through responsive storytelling interfaces using Next.js, React, and TypeScript.

Nexoresha Media Works React • Next.js • TypeScript • Tailwind CSS | GitHub | Live Demo

- Developed a responsive digital-agency website showcasing creative services, branding solutions, and modern web experiences with reusable Next.js and React components.

Central Thrifts React • Next.js • TypeScript • Tailwind CSS | GitHub | Live Demo

- Built a responsive thrift-fashion marketplace interface for curated vintage and pre-owned clothing using modern Next.js and React development patterns.

ACHIEVEMENTS & CERTIFICATIONS

Industry Hackathon (Tata AIA) — Second Runner-Up: Vidyalankar Polytechnic & Techshala, 2026.
Deloitte Cyber Job Simulation: Threat analysis, risk assessment, and cybersecurity fundamentals, 2026.
Deloitte Technology Job Simulation: Coding, software development, and technical problem-solving tasks, 2026.
